

# LifeSpring Turning Point Center

## The Road to Recovery Starts Here

### ELIGIBILITY REQUIREMENTS

- 18 years of age and above; and
- Indiana resident (OR) returning veteran; and
- Current screening (with results) for TB; and
- 200% Federal Poverty Level (OR) returning veteran; and
- Must have diagnosable alcohol or substance use disorder.

If a client meets admissions criteria and a bed is not available, they will be placed on a waiting list.

- This list is updated and reviewed daily.
- Clients will be admitted from the waiting list based on the length of time on the waiting list, with the client on the waiting list the longest being admitted first, unless they are a priority admission.
- Outpatient treatment will be offered to clients who are on the waiting list.
- Individuals seeking Turning Point Center services who are not residents of the LifeSpring service area will be referred to the community mental health center in their respective county for outpatient services while waiting admission.

### PRIORITY ADMISSIONS

1. During the screening process, all individuals seeking services will be screened for possible medical issues including pregnancy.
2. Women who indicate that they are pregnant or may be pregnant and are in need of detoxification services will be admitted immediately. A client, who indicates that she may be pregnant but is unsure, will be referred to her local Health Department for determination of pregnancy status.
3. Women who have been diagnosed with Pregnancy, will be admitted before all other clients on the waiting list.
4. If no bed is available for a pregnant woman, the individual will be referred to immediate community supports which can assist with their detoxification.
5. Clients referred by the Department of Child Services will receive priority admission behind pregnant women.
6. Clients who are not pregnant and demonstrate symptomology indicating high risk for lethality, including but not limited to intravenous drug abuse, may be admitted ahead of other clients, dependent on physician determination.
